Electricity Industry (Exemption No. 231 (Meridian Energy Limited)) Exemption Notice 2015

In accordance with section 11 of the Electricity Industry Act 2010 (“Act”), the Electricity Authority gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 231 (Meridian Energy Limited)) Exemption Notice 2015.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—(1) Meridian Energy Limited (“Meridian”) is exempted from complying with the obligation in clause 10.24(c) of the Electricity Industry Participation Code 2010 (“Code”), not to use subtraction to determine submission information.

(2) This exemption applies only to installation control point (“ICP”) identifier 0009805800AL991.

3. Term—This exemption expires at the earlier of:

- the close of **31 December 2024**;
- the date on which Meridian is no longer recorded in the registry as being the trader for ICP identifier 0009805800AL991;
- the date on which Alpine Energy Limited is no longer recorded in the registry as being the metering equipment provider for ICP identifier 0009805800AL991; and
- when embedded generation is injected through any one of the four meters currently used in the calculation of submission information by subtraction.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- Meridian would otherwise incur significantly higher metering lease fees and data collection fees that would outweigh any benefit resulting from compliance;

- b. the exemption will allow Meridian to continue to use subtraction to determine submission information, even though this ICP is not also a network supply point;
- c. deriving the submission information from the metering installations by subtraction is as accurate as it would be if it was derived using directly metered data;
- d. the exemption will have no impact on any other participant or service provider, and will not affect any other Code provision; and
- e. the exemption meets the requirements in section 11(2) of the Act for granting exemptions.

Dated at Wellington this 24th day of August 2015.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—(1) Alpine Energy Limited (“Alpine”) is exempted from complying with the obligation in clause 4(2)(a) of Schedule 10.7 of the Electricity Industry Participation Code 2010 (“Code”) to ensure that its metering installation configuration does not use subtraction to determine submission information.

(2) This exemption applies only to installation control point (“ICP”) identifier 0009805800AL991.

3. Term—This exemption expires at the earlier of:

- a. the close of **31 December 2024**;

- d. when embedded generation is injected through any one of the four meters currently used in the calculation of submission information by subtraction.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- a. Alpine would otherwise incur significant metering installation expenditure that would outweigh any benefit resulting from compliance;
- b. Alpine cannot comply with the obligation in clause 4(2)(a) of Schedule 10.7 of the Code until Meridian requests new metering installations at the Clandeboye dairy factory;
- c. deriving the submission information from the metering installations by subtraction is as accurate as it would be if it was derived using actual metered data;
- d. the exemption will have no impact on any other participant or service provider, and will not affect any other Code provision; and
- e. the exemption meets the requirements in section 11(2) of the Act for granting exemptions.

3. Reasons for this amendment—The reasons for amending the principal exemption are as follows:

- a. the amendment meets the requirements in section 11(3) of the Act for amending exemptions;
- b. amending the exemption will help a small new entrant retailer to remain in the market, which could lead to increased competition for the long-term benefit of consumers;
- c. an Authority-approved auditor conducted an initial audit of Giving Energy Limited (“Giving Energy”) in February 2015, which indicated that Giving Energy meets the requirements relevant to the functions in clause 15.38 for which it is seeking certification;
- d. the amendment will allow Giving Energy time to develop more comprehensive procedures and documentation essential for ISO 9001 quality management certification; and
- e. due to the small number of installation control points involved, the amendment to the exemption will have little or no impact on other participants and service providers, and will not affect any other provisions of the Electricity Industry Participation Code 2010.

Dated at Wellington this 24th day of August 2015.

For and on behalf of the Electricity Authority:

Hon ROGER SOWRY, onzm, Member, Electricity Authority.

¹[New Zealand Gazette, 16 April 2015, Issue No. 38, Notice No. 2015-au2272](#)

Notice of the Electricity Industry Participation Code Amendment (Transmission Pricing) 2015

1. Under section 38(3)(b) of the Electricity Industry Act 2010, and having complied with section 39 of that Act, the Electricity Authority gives notice of making the Electricity Industry Participation Code Amendment (Transmission Pricing) 2015 (“amendment”).
2. The amendment comes into force on **1 April 2017**.
3. The amendment is the result of a review of the transmission pricing methodology in Schedule 12.4 of the Electricity Industry Participation Code (“Code”). The review was initiated by Transpower under clause 12.85 of the Code.
4. The amendment changes the definition of regional peak demand periods so that the calculation of the periods for the Upper North Island and the Upper South Island regions is based on the 100 highest regional

demands in the relevant capacity measurement period. This means that the calculation of regional peak demand periods for all four regions will be based on the 100 highest regional demands. The description of each region has also been clarified.

5. The amendment changes the definition of capacity measurement period for the purpose of determining regional peak demand periods, so that summer trading periods are excluded for the Lower South Island, Lower North Island, and Upper North Island regions.
6. HVDC charges (charges for the HVDC link) will continue to be paid by South Island generators. The amendment provides for a transition from the current HAMI-based charge to a charge based on the total injection by each South Island generator at each South Island generation connection location, averaged over five years.
7. Finally, the amendment requires Transpower to make adjustments to minimise the effect on transmission charges of reverse flow that occurs as a result of a GXP tie.
8. A copy of the amendment and the Electricity Industry Participation Code 2010 (“Code”) is available on the Electricity Authority’s website:
www.ea.govt.nz/code-and-compliance/the-code/
9. A copy of the amendment and the Code may also be inspected free of charge or purchased from the Electricity Authority, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington.

Dated at Wellington this 24th day of August 2015.

Dr THOMAS BRENT LAYTON, Chairperson, Electricity Authority.

2. In this Easement Instrument:

 - b. “Servient Land” means Section 5 on SO 470914 (Computer Freehold Register WN16B/638).

Purpose

4. The purpose of the Easement Facility is to drain the stormwater runoff from the road (Wellington Northern Corridor – MacKays to Peka Peka Expressway), following works carried out by the Grantee, in the immediate vicinity of the Servient Land.
5. The Grantee needs to ensure the unimpeded performance of the Easement Facility in perpetuity, and therefore needs to reserve certain rights in relation to the Easement Facility and impose certain obligations on the Grantor in relation to the Servient Land.

6. The Stormwater Corridor, the Stormwater manholes and the Stormwater culvert are integral parts of the Easement Facility.

 - c. fill in the Stormwater manhole and Stormwater culvert or otherwise hinder, obstruct or impede the flow of water in the Stormwater culvert;
 - d. construct, lay, or erect anything on, through, under or over the Stipulated Area except as permitted in clause 9 of this Easement Instrument;
 - e. discharge any liquid into the Stormwater culvert or do anything (including, without limitation, new drainage from existing buildings, new impermeable areas, developments and subdivision on the Servient Land) which might create any new source of drainage which might discharge into the Stormwater culvert;
 - f. plant any vegetation, except grass and shrubs, on the Stipulated Area;
 - g. any other thing;which, or to the extent that, in the Grantee's reasonable opinion would endanger the Easement Facility, or impede, frustrate or hinder the Easement Facility achieving the purpose in clause 4, or the Grantee exercising any rights under this Easement Instrument.
9. The Grantor may construct or permit to be constructed on the Stipulated Area any improvement, including a vehicle crossing, that is not a building or structure of any kind or any improvement that would prevent access for repair and/or maintenance of the Easement Facility.

Fifth Schedule

Purpose for Which Leasehold Estate is Required

The lease is required to allow the Crown to occupy the lease land during the construction of the project. The lease land will be used for access to the bridge, construction of swale and sediment pond, access to construction sites and such other purpose or purposes reasonably required for construction of the project.

Terms of the Leasehold Estate

1. The definitions detailed in the Fourth Schedule of this document shall apply to the terms of this Fifth Schedule.
2. For the purpose of the lease, any reference to the Crown includes its employees, engineers, assistants, consultants, contractors and authorised invitees.
3. The lease term shall commence on the day after the conclusion of court Proceedings ENV-2014-WLG-000043/44 and shall terminate two years after that date ("term").
4. The registered proprietor shall be entitled to receive a current market rent for the term, such rate to be determined by a registered valuer and agreed between the parties or otherwise in accordance with the Public Works Act 1981 at the commencement of the lease.
5. Notwithstanding the term created, the Crown may terminate the lease at any time by giving the registered proprietor one month's notice in writing.
6. The Crown shall have the right to occupy the lease land for the term and for the avoidance of doubt such right shall include the right to enter and re-enter the lease land at all times, with or without such vehicles, machinery or materials for the purpose set out in the notice.
7. Prior to commencement of the project, the Crown shall erect a temporary fence for the period of construction

- of the project to provide adequate security to the balance of the property if required by the lessor.
8. The Crown shall take all reasonable steps to minimise damage to the lease land arising from the Crown's occupation under the lease and/or the execution of construction of the project.
 9. The Crown shall, at the expiration of the term, remove all debris arising from the Crown's occupation under the lease together with any temporary fences, construction machinery, construction buildings, sheds, hardstands, and other improvements required to be erected by the Crown during the lease. The Crown shall otherwise restore the lease land to a condition generally in keeping with the character of the lease land prior to entry. The Crown shall complete such work in a good and workmanlike manner.
 10. The Crown acknowledges that the registered proprietor intends to carry out its own development on the land ("Development") during the term, and that the Development requires continuity of access to the lease land and the balance of the land. Accordingly the Crown and the registered proprietor agree to co-operate with each other and co-ordinate their respective activities so that any disruption or inconvenience is minimised for both parties, and agree to keep each other informed of significant activities so that appropriate forward planning and mitigation can take place.
 11. The Crown agrees to exercise its rights under this lease so that the registered proprietor is not prevented from accessing the lease land except over that part of the lease land required for installation of the Easement Facility while the Easement Facility is being installed which will occur as soon as practicable after the commencement of the term, and the balance of the land for the Development throughout the term. The registered proprietor may install traffic signals to regulate access to and from the land and construct a vehicle access to provide access to and from the land.

Given under the hand of His Excellency the Governor-General of New Zealand and issued under the Seal of New Zealand this 19th day of August 2015.
